The double wedding ring quilt may seem daunting at first glance, but with the right guidance, anyone can create their own stunning version. In this article, we will explore the history, materials, techniques, and step-by-step instructions to help you successfully craft an easy double wedding ring quilt.

History of the Double Wedding Ring Quilt

The double wedding ring quilt has a rich history dating back to the early 20th century. It is believed that the pattern emerged in the 1920s, gaining popularity during the Great Depression as a way for families to utilize scraps of fabric creatively. The design features interlocking rings, which symbolize the bond between two people, thus making it a popular choice for wedding gifts.

Historically, the double wedding ring quilt was made with a range of fabrics, from solid colors to floral prints, allowing for personal expression. The pattern has evolved over the years, and today, quilters can choose from various styles, including traditional, modern, and even scrappy interpretations.

Materials Needed for an Easy Double Wedding Ring Quilt

Before diving into the sewing process, it's essential to gather all the necessary materials. Here's a list of items you will need:

Fabric

1. Background Fabric: This will be the main fabric for the quilt. Choose a fabric that resonates with your style; solid white, cream, or pastel shades are often preferred.
2. Ring Fabrics: Select several fabrics for the rings. These can be a mix of prints and solids, and you might want to choose fabrics that complement or contrast with the background.
3. Binding Fabric: A fabric that matches or complements your quilt top for finishing the edges.
4. Backing Fabric: Larger fabric for the quilt's back, typically a solid or matching print.

Other Supplies

- Rotary cutter and cutting mat: For precise cutting of fabric pieces.
- Quilt ruler: Essential for measuring and cutting accurate sizes.

- Sewing machine: A reliable machine is necessary for piecing the quilt.
- Thread: Choose a color that matches your fabric.
- Iron and ironing board: For pressing seams flat.
- Batting: The layer of insulation between the quilt top and backing.
- Safety pins or basting spray: For holding layers together before quilting.
- Quilting gloves (optional): To help grip fabric while quilting.

Understanding the Double Wedding Ring Design

The double wedding ring quilt consists of interlocking rings, which can be made using a series of arcs and squares. The traditional design features two rings that overlap, creating a beautiful pattern. While it may appear complex, breaking it down into manageable steps will simplify the process.

Step-by-Step Instructions for Creating an Easy Double Wedding Ring Quilt

Creating a double wedding ring quilt can be accomplished in several steps. Follow this guide to make your own quilt.

Step 1: Cutting Fabric Pieces

1. Background Pieces: Cut the background fabric into squares. A common size is 4.5 inches square, but this can vary based on your desired quilt size.
2. Ring Pieces:
 - Cut the fabrics for the arcs into the required shape. You can find templates online or create your own. Typically, you will need two shapes (the arc and the corner piece) for each ring.
 - Cut the corner squares that will complete the rings. These are usually 2.5 inches square.
3. Prepare the Batting and Backing: Cut your batting and backing fabric to the size of your finished quilt.

Step 2: Piecing the Rings Together

1. Sewing the Arcs:
 - Begin by sewing the arcs together to form the rings. Align the edges and use a quarter-inch seam allowance.
 - Press the seams open to reduce bulk.
2. Adding Corner Pieces: Attach the corner squares to the arcs to complete each ring.
3. Create Multiple Rings: Continue piecing together arcs and corner squares until you have enough rings for your quilt top. Depending on the size of your quilt, this could be anywhere from 12 to 20 rings.

Step 3: Assembling the Quilt Top

1. Layout: Before sewing the rings together, lay out your rings on the floor or a design wall to determine the arrangement. This allows you to adjust colors and patterns for aesthetic balance.
2. Sewing the Rings Together: Start sewing the rings together in rows. Pin the intersections carefully to ensure that the arcs align properly.
3. Joining Rows: Once the rows are complete, sew them together to form the quilt top. Press as you go to keep the seams flat.

Step 4: Layering the Quilt

1. Layering: Place the backing fabric right side down, followed by the batting in the middle, and then the quilt top right side up.
2. Basting: Use safety pins or basting spray to secure the layers together, preventing any shifting during quilting.

Step 5: Quilting the Layers

1. Quilting: You can quilt by hand or with a sewing machine. Choose a quilting pattern that complements your design—this could be straight lines, curves, or even free-motion quilting.
2. Trim Excess Batting and Backing: After quilting, trim any excess batting and backing to match the quilt top.

Step 6: Adding the Binding

1. Cut Binding Strips: Cut strips of binding fabric, typically 2.5 inches wide.
2. Attach Binding: Sew the binding to the edges of the quilt, mitering the corners as you go. Fold the binding over to the back and hand stitch or machine sew it down.

Tips for Success

- Practice on Scrap Fabric: If you're new to quilting, practice the techniques on scrap fabric before starting your quilt.
- Take Your Time: This project can be time-consuming; patience will yield the best results.
- Join a Quilting Group: Consider joining a local quilting group or online community for support and inspiration.
- Watch Tutorials: There are many online tutorials that can provide visual guidance, making the process easier to follow.
