Easy Updos to Try

Below are three easy updos that are perfect for beginners and can be completed in just a few minutes.

1. Messy Bun

The messy bun is the epitome of effortless chic. Here's how to achieve it:

1. **Start with Dirty Hair:** This style works best with second or third-day hair because it has more texture.
2. **Gather Your Hair:** Flip your head upside down and gather all your hair into a loose ponytail at the crown of your head.
3. **Twist the Ponytail:** Twist the ponytail loosely and wrap it around the base to form a bun.
4. **Secure with Bobby Pins:** Use bobby pins to secure the bun in place, leaving a few tendrils loose for a relaxed look.
5. **Finish with Hair Spray:** Mist your hair with hairspray to keep everything in place.

2. Low Chignon

The low chignon is a sophisticated updo suitable for formal occasions. Here's how to create it:

1. **Brush Your Hair:** Smooth out any tangles and brush your hair back.
2. **Make a Low Ponytail:** Gather your hair into a low ponytail at the nape of your neck and secure it with a hair tie.
3. **Twist and Wrap:** Twist the ponytail and wrap it around the base to form a chignon.
4. **Secure with Pins:** Use bobby pins to secure the chignon, making sure it feels snug but comfortable.
5. **Add Accessories:** If desired, add decorative pins or a hairpiece for an extra touch.
6. **Finish with Hair Spray:** Use hairspray to hold the style in place.

3. Braided Crown

The braided crown is a romantic and whimsical updo. Follow these steps to create your own:

1. **Part Your Hair:** Part your hair down the middle for an even look.
2. **Braid Each Side:** Take a section of hair from one side and create a simple three-strand braid. Secure the end with a hair tie. Repeat on the other side.
3. **Wrap the Braids:** Take one braid and wrap it around the crown of your head, securing it with bobby pins. Do the same with the other braid, overlapping it slightly for a fuller look.
4. **Adjust and Tweak:** Pull gently on the braids to loosen them and create a fuller appearance.
5. **Secure and Finish:** Use hair spray to hold everything in place.

Tips for Perfecting Your Updos

Creating the perfect updo takes practice, but these tips can help you refine your technique:

- **Practice Makes Perfect:** The more you practice, the more comfortable you will become with various techniques.
- **Use Texturizing Products:** If your hair is too silky, it may be hard to hold styles. Texturizing spray can add grip.
- **Work with Your Hair Type:** Different hair types may require different approaches. Experiment to see what works best for you.
- **Secure with Enough Pins:** If you have thick hair, don't skimp on bobby pins. Ensure everything is secure to avoid any mishaps during the day.
- **Accessorize Wisely:** Hair accessories can elevate your look, but be careful not to overdo it. Simple and elegant often works best.
