Maintenance and Care

To ensure the longevity and optimal performance of your Edison Professional M2000 Bluetooth Speaker, consider the following maintenance tips:

- Regular Cleaning: Wipe the exterior with a soft, dry cloth to remove dust and debris. Avoid using harsh chemicals.
- Battery Care: Do not leave the speaker plugged in for extended periods once fully charged, as this can degrade the battery over time.
- Storage: When not in use, store the speaker in a cool, dry place away from direct sunlight and moisture.

Troubleshooting Common Issues

While the Edison Professional M2000 is designed for ease of use, you may encounter some common issues. Here are some troubleshooting tips:

1. No Sound

- Ensure the speaker is powered on and connected to your device.
- Check the volume levels on both the speaker and your device.
- Verify that the correct input source is selected.

2. Bluetooth Connection Problems

- Ensure Bluetooth is enabled on your device and that it is within range (30 feet).
- Restart both the speaker and the Bluetooth device.
- Try forgetting the device on your Bluetooth settings and reconnecting.

3. Distorted Sound

- Lower the volume on both the speaker and your device to prevent distortion.
- Ensure that the audio files being played are of high quality.

4. LED Lights Not Functioning

- Check if the LED lights are turned on using the dedicated button.
- If the lights are still not working, consult customer support for further assistance.
