Understanding the CEN Certification

The CEN certification is a recognized credential that demonstrates a nurse's expertise in emergency care. Meeting these requirements ensures that candidates possess the foundational knowledge and experience necessary to succeed in the exam and in their practice as certified emergency nurses.

Exam Structure

The CEN exam consists of 175 multiple-choice questions, of which 150 are scored. The remaining 25 questions are unscored and serve as pre-test items. Candidates are given a total of 3.5 hours to complete the exam. The questions are designed to cover a wide array of topics, including:
