Mechanics to Note:

- AoE Damage: Watch for the red circles on the ground. These indicate where Captain Blackheart will strike with powerful AoE attacks.

Strategies:

- Positioning: Keep the group spread out to minimize damage from AoE attacks.

2. The Second Boss: The Dread Captain

The Dread Captain is a formidable foe with mechanics that test the group's coordination and communication.

Mechanics to Note:

- Chains of Binding: The Dread Captain will occasionally bind players with chains, preventing them from moving. Other players must break the chains.
- Wave Attack: A large wave will sweep across the arena, dealing damage. Players must jump to avoid it.

Strategies:

- Chain Management: Assign roles for chain-breaking to ensure no players are left immobilized for too long.
- Jump Timing: Practice jumping in sync with the wave attack to avoid damage.

3. The Final Boss: The Dread Sailor

Mechanics to Note:

- Unstable Waters: The Dread Sailor will create unstable areas in the arena that deal damage over time.
- Tsunami Attack: A devastating attack that will wipe out unprepared groups. Players need to stack together to mitigate damage.

Strategies:

- Avoiding Unstable Waters: Keep moving to avoid standing in damaging areas.
- Stacking for Tsunami: When the Tsunami attack is imminent, make sure the group is stacked to share the damage effectively.
