Program Overview

The Georgia Southern Occupational Therapy program is designed to equip students with the necessary knowledge, skills, and practical experiences to excel as occupational therapists. This program emphasizes a holistic approach to therapy, focusing on the individual needs of clients. Students engage in hands-on learning through clinical placements, enabling them to apply theoretical concepts in real-world settings.

Georgia Southern University offers a Doctor of Occupational Therapy (OTD) degree, which is essential for those seeking to practice as licensed occupational therapists. The program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), ensuring that it meets the highest educational standards. This accreditation is crucial for graduates as it qualifies them to sit for the National Board for Certification in Occupational Therapy (NBCOT) exam.

Curriculum Details

The curriculum of the Georgia Southern Occupational Therapy program is structured to provide a comprehensive education in both the theoretical and practical aspects of occupational therapy. The program spans over three years, culminating in a doctoral degree, and includes a blend of coursework, fieldwork, and research components.

Core Courses

Students in the program will engage in a variety of core courses that cover key areas of occupational therapy. Some of the essential subjects include:

- Foundations of Occupational Therapy
- Human Anatomy and Physiology
- Neuroscience and Occupational Performance
- Psychosocial Aspects of Therapy
- Therapeutic Modalities and Interventions

These courses provide students with the foundational knowledge necessary to understand the complexities of human behavior and the therapeutic process. Additionally, students will learn about evidence-based practice and how to apply research findings to improve client outcomes.

Fieldwork Experience

A significant component of the Georgia Southern Occupational Therapy program is the fieldwork experience. Students complete a series of supervised clinical placements in various settings, including hospitals, rehabilitation centers, schools, and community organizations. This hands-on training is crucial for developing practical skills and understanding the day-to-day responsibilities of an occupational therapist.

Admission Requirements

Admission to the Georgia Southern Occupational Therapy program is competitive and requires prospective students to meet specific criteria. To be eligible for consideration, applicants must have completed a bachelor's degree from an accredited institution and met the prerequisite coursework requirements.

Prerequisite Coursework

The following prerequisite courses must be completed prior to admission:

- Biological Sciences with Lab
- Human Anatomy and Physiology
- Statistics
- Psychology
- Sociology

In addition to the coursework, applicants must submit GRE scores, letters of recommendation, and a personal statement outlining their motivation for pursuing a career in occupational therapy. The selection process also takes into consideration relevant volunteer or work experience in the healthcare field.
