2. Minor Scales

Minor scales come in three varieties: natural, harmonic, and melodic. Each type has its unique sound and emotional quality, making them crucial for various musical genres.

- Natural Minor Scale: Follows the interval pattern: whole, half, whole, whole, half, whole, whole.
- Harmonic Minor Scale: Similar to the natural minor but raises the seventh note.
- Melodic Minor Scale: Ascends with a raised sixth and seventh note and

descends like the natural minor.

3. Pentatonic Scales

The pentatonic scale consists of five notes and is widely used in rock, blues, and folk music. There are two common forms:

- Major Pentatonic Scale: The first, second, third, fifth, and sixth degrees of the major scale.
- Minor Pentatonic Scale: The first, third, fourth, fifth, and seventh degrees of the natural minor scale.

4. Blues Scales

The blues scale is a variation of the pentatonic scale with an added "blue note," which provides a distinct sound commonly associated with blues music. It is used to create expressive solos and riffs.
