Understanding Helping Verbs

Helping verbs are verbs that assist the main verb in a sentence by providing additional meaning, such as tense, mood, or voice. They are crucial for forming various verb tenses and constructing perfect and progressive aspects. The most common helping verbs include:

- Be (is, am, are, was, were, being, been)
- Have (has, have, had, having)
- Do (does, do, did, doing)

In addition to these primary helping verbs, modal verbs such as can, could, may, might, must, shall, should, will, and would also serve as helping verbs to express necessity, possibility, or permission.
