Level 1: The Beginning

In the first level, the objective is simple: match three items to collect wood and stone.

- Strategy: Focus on creating matches near the bottom of the board. This will cause more pieces to fall and potentially create new matches.

Here, players need to collect food and gold.

- Solution: Prioritize matches that create chains.
- Power-Ups: Save your power-ups for when the board gets cluttered, as they can help clear multiple tiles at once.

Level 3: Building Foundations

At this level, players must start building structures using the resources gathered.

- Focus: Clear the board efficiently to gather enough resources before time runs out.
- Combo Matches: Try to create combos that can lead to cascades, which can fill your resource meter faster.

Level 4: The First Challenge

This level introduces new types of obstacles, such as locked tiles.

- Solution: Clear adjacent tiles to unlock them.
- Tactics: Always plan your moves ahead; sometimes it's better to match fewer tiles to clear a locked tile.
