Q: What should I do if my 2002 Honda CR-V won't start?

A: If your CR-V won't start, first check the battery and connections. Ensure that the battery is charged and that the terminals are clean and tight. If the battery is functioning properly, check the fuel level and listen for the fuel pump when turning the ignition.

Q: How often should I change the oil in my 2002 Honda CR-V?

A: The oil in your 2002 Honda CR-V should be changed every 3,000 to 5,000 miles, depending on driving conditions and oil type. Always refer to the owner's manual for specific recommendations.

Q: What is the recommended tire pressure for the 2002 Honda CR-V?

A: The recommended tire pressure for the 2002 Honda CR-V is typically 30 PSI for the front and rear tires. Always check the driver's side door jamb for the specific PSI rating.

Q: Where can I find the owner's manual for my 2002 Honda CR-V?

A: You can find the owner's manual for the 2002 Honda CR-V in the glove compartment of your vehicle. If it's missing, you may be able to download a digital version from Honda's official website or purchase a replacement from a dealership.

Q: What are common signs that my brakes need maintenance?

A: Common signs that your brakes may need maintenance include squeaking or grinding noises, a soft or spongy brake pedal, and vibrations when braking. It's important to address these issues promptly for safety.

Q: Can I use regular gasoline in my 2002 Honda CR-V?

A: Yes, the 2002 Honda CR-V is designed to run on regular unleaded gasoline. However, using higher octane gasoline may provide slight performance improvements.

Q: What should I do if the check engine light comes on in my CR-V?

A: If the check engine light comes on, it's advisable to check for any obvious issues, such as loose gas caps or low oil levels. If the light remains on, consider using an OBD-II scanner to read the trouble codes or take the vehicle to a mechanic for diagnosis.

Q: How do I reset the maintenance light on my 2002 Honda CR-V?

A: To reset the maintenance light, turn the ignition to the "on" position without starting

the engine. Press the gas pedal three times within 5 seconds, then turn the ignition off. The maintenance light should reset.

Q: What should I check before going on a long trip with my 2002 Honda CR-V?

A: Before a long trip, check the oil level, tire pressure, coolant level, brake fluid, and windshield wiper fluid. Ensure that the battery is in good condition and inspect the brakes for any wear.
