

how to knit on a circle loom

How to knit on a circle loom is an exciting and accessible way to create beautiful knitted items without needing to master traditional needle knitting techniques. Circular looms are excellent tools for beginners and seasoned crafters alike, offering a simple yet effective method for crafting hats, scarves, and other projects. In this article, we will explore the essentials of knitting on a circle loom, including the materials needed, different techniques, patterns to try, and tips for success.

Understanding Circle Looms

Circle looms are circular tools made from plastic or wood with pegs evenly spaced around their perimeter. They come in various sizes, allowing crafters to create items ranging from small projects like keychains to larger ones like blankets. One of the key advantages of using a circle loom is that it simplifies the knitting process, making it easier to achieve consistent tension and even stitches.

Types of Circle Looms

1. Plastic Circle Looms: These are the most common type and often come in sets with various sizes. They are lightweight, affordable, and come in different colors.
2. Wooden Circle Looms: These looms are usually more durable and provide a smoother knitting experience. They can be more expensive than plastic options but are favored by some knitters for their aesthetic appeal.
3. Adjustable Circle Looms: Some looms come with adjustable pegs, allowing you to change the size of the circle, making them versatile for different projects.

Materials Needed

Before you start knitting on a circle loom, gather the following materials:

- Circle Loom: Choose a size based on the project you are planning (e.g., a larger loom for blankets and a smaller one for hats).
- Yarn: Select a yarn that suits your project. Medium weight (worsted weight) yarn is a good choice for beginners.
- Loom Hook: A special hook that helps to lift and manipulate the yarn around the pegs.
- Scissors: For cutting the yarn at the end of your project.
- Tapestry Needle: Used for weaving in ends and finishing your project.
- Optional: Stitch markers, measuring tape, and a row counter for keeping track of your stitches.

Getting Started with Circle Loom Knitting

Now that you have all your materials ready, it's time to get started with the basics of knitting on a

circle loom.

Setting Up Your Loom

1. Choose Your Yarn: Select your yarn and make sure it is appropriate for the size of your loom. The thickness of the yarn will affect the size of your finished product.
2. Make a Slip Knot: Create a slip knot and place it on the first peg of your loom. This knot will serve as your first stitch.
3. Wrap the Loom: Working clockwise, wrap the yarn around each peg. Make sure to wrap the yarn snugly but not too tight, as you need to be able to lift it later.
4. Double Wrap: For a thicker fabric, you can double wrap each peg by wrapping the yarn around each peg twice before moving on to the next one.

Knitting Techniques

There are several techniques you can use when knitting on a circle loom:

1. E-Wrap Stitch: This is the most common stitch used in circle loom knitting. To perform the E-wrap stitch:
 - Wrap the yarn around the peg from the back to the front, making a loop.
 - Pull the bottom loop over the top loop and off the peg.
 - Repeat for each peg around the loom.
2. Purl Stitch: The purl stitch creates a textured pattern and can be added to your project for variety.
 - Insert the loom hook into the front of the peg from the back.
 - Wrap the yarn around the peg from the front to the back.
 - Pull the bottom loop over the top loop and off.
3. Knit Stitch: This stitch is similar to the E-wrap but has a slightly different technique:
 - Insert the loom hook into the peg, lifting the bottom loop over the top.
 - Wrap the yarn around the peg and pull it through, then replace the top loop back on the peg.

Creating Your First Project

Once you are comfortable with the basic stitches, it's time to create your first project. A simple hat is an excellent starting point.

Step-by-Step Hat Instructions

1. Choose Your Loom Size: For a standard adult beanie, use a loom that has a diameter of about 36 pegs.
2. Cast On: Follow the steps outlined above to set up your loom and cast on using the E-wrap stitch.
3. Knit the Body: Continue knitting in the round until your work measures about 8-10 inches,

depending on how slouchy you want the hat.

4. Decrease for the Crown: To shape the top of the hat, you will decrease the number of stitches:

- Every 6th row, knit two stitches together around the loom until you have about 10 stitches left.

5. Finish Off: Cut your yarn, leaving a long tail. Thread the tail through the remaining stitches and pull tight to close the top of the hat. Weave in any loose ends with the tapestry needle.

Tips for Successful Loom Knitting

1. Practice Tension: Finding the right tension is key. If your stitches are too tight, your project may be hard to work with; if they are too loose, the fabric may lack structure.

2. Keep Your Yarn Untangled: Use a yarn bowl or keep your yarn in a bag to prevent tangling while you work.

3. Experiment with Patterns: Once you master the basic stitches, try incorporating different patterns into your projects, such as ribbing or color changes.

4. Take Breaks: If you're working on a larger project, take breaks to avoid hand fatigue.

5. Join a Community: Consider joining a knitting group or online community for support, pattern sharing, and inspiration.

Conclusion

Learning how to knit on a circle loom opens up an entire world of creativity and fun. With just a few materials and techniques, you can create beautiful knitted pieces that showcase your personal style. Whether you are making gifts for family and friends or treating yourself to a cozy accessory, circle loom knitting is a rewarding craft that is both enjoyable and satisfying. So grab your loom, choose your yarn, and let your creativity flow!

Frequently Asked Questions

What materials do I need to start knitting on a circle loom?

To start knitting on a circle loom, you'll need a circle loom, a loom hook, yarn of your choice, and scissors.

How do I cast on stitches for a circle loom?

To cast on stitches, wrap the yarn around each peg in a clockwise direction, creating a loop. Ensure you have the same number of stitches as pegs.

What is the best type of yarn for beginners using a circle loom?

A medium weight (worsted) acrylic yarn is ideal for beginners as it is easy to work with and comes in various colors.

How do I knit a basic stitch on a circle loom?

To knit a basic stitch, use the loom hook to lift the bottom loop over the top loop on each peg, working your way around the loom.

Can I knit in the round on a circle loom?

Yes, you can knit in the round on a circle loom, which is perfect for making hats, scarves, and other tubular items.

How do I change yarn colors on a circle loom?

To change yarn colors, simply tie the new yarn to the old yarn and continue knitting with the new color, ensuring you knit over the old color to secure it.

What are some common mistakes to avoid when using a circle loom?

Common mistakes include not tightening stitches enough, skipping pegs, or not counting rows accurately. Always double-check your work!

How do I finish my project and remove it from the circle loom?

To finish, cut the yarn, leaving a long tail. Use the loom hook to lift the loops off the pegs one by one, then weave in the ends to secure your project.
