

how to make fake dreadlocks with yarn

How to make fake dreadlocks with yarn is a creative and fun way to change your hairstyle without the commitment of permanent dreadlocks. Yarn dreadlocks can be a stylish alternative for special occasions, festivals, or simply for a new look. This article will guide you through the process of making and installing fake dreadlocks using yarn, covering everything from materials needed to styling tips.

Materials Needed

Before you start creating your yarn dreadlocks, gather all the necessary materials. Here's a comprehensive list:

- **Yarn:** Choose the color and texture that best suits your style. Acrylic yarn is popular due to its durability and wide range of colors.
- **Scissors:** For cutting the yarn to the desired lengths.
- **Comb or brush:** To detangle your natural hair and create sections.
- **Hair ties or clips:** To secure sections of your hair while you work.
- **Hot glue gun (optional):** For securing the ends of the yarn dreadlocks.
- **Optional accessories:** Beads, ribbons, or other decorative items to embellish your dreadlocks.

Preparing the Yarn

Creating fake dreadlocks with yarn starts with preparing the yarn itself. The following steps will help you cut and prepare the yarn for the installation process.

Step 1: Choose the Length

Decide how long you want your dreadlocks to be. The length will depend on your personal preference and how you want them to flow with your natural hair. A common length for faux dreadlocks ranges from 18 to 36 inches.

Step 2: Cut the Yarn

Once you've decided on the length, cut the yarn into equal lengths. It's recommended to cut a few extra pieces in case some of them are not as neat or if you want to add more later.

Step 3: Prepare the Sections

Once you have your yarn cut, you can prepare it for twisting. Take a section of yarn and fold it in half. This will create a loop at one end, which will be used to attach the fake dreadlock to your natural hair.

Creating the Dreadlocks

Now it's time to create the actual dreadlocks. This part of the process involves twisting the yarn into the desired dreadlock shape.

Step 4: Twist the Yarn

To create the dreadlock look, twist the yarn tightly. This will give it the appearance of a traditional dreadlock. You can also mix different colors of yarn together for a multi-tonal effect.

Step 5: Secure the Ends

Once you've twisted a section of yarn to your satisfaction, secure the ends by either tying them in a knot or using a hot glue gun. If using a hot glue gun, apply a small amount of glue to the ends and press them together to seal.

Step 6: Repeat

Continue this process for each piece of yarn until you have enough faux dreadlocks to achieve your desired look. Aim for 20 to 40 pieces, depending on how full you want your hairstyle to be.

Installing the Yarn Dreadlocks

Once you've created your yarn dreadlocks, it's time to install them into your natural hair.

This process can be a bit time-consuming, but the results are well worth the effort.

Step 7: Section Your Hair

Start by sectioning your natural hair. Use clips or hair ties to separate the hair into manageable sections. Generally, you'll want to work with small sections for a more natural look.

Step 8: Attach the Dreadlocks

To attach the yarn dreadlocks, place the loop of the yarn over the section of natural hair and pull the ends of the yarn through the loop. Pull tightly to secure the dreadlock to your hair.

Step 9: Braid or Twist

For added security, you can braid or twist the natural hair with the yarn dreadlock. This will help to keep the fake dreadlock in place and make the installation look more seamless.

Step 10: Repeat

Continue this process until all your sections of hair are adorned with yarn dreadlocks. Ensure that the dreadlocks are spaced evenly for a balanced look.

Styling Your Yarn Dreadlocks

Once your yarn dreadlocks are installed, it's time to style them. Here are some tips to help you make the most of your new look.

Step 11: Add Accessories

Consider adding beads, ribbons, or other decorative items to your yarn dreadlocks. This will personalize your hairstyle and add a unique flair. Simply slide the accessories onto the yarn or tie them in place.

Step 12: Maintain Your Dreadlocks

To keep your yarn dreadlocks looking fresh, make sure to gently wash and care for them. You can lightly spritz them with water or a leave-in conditioner to keep them from looking frizzy.

Step 13: Remove the Dreadlocks

When you're ready to take out your yarn dreadlocks, simply undo the braids or twists and slide the yarn out of your hair. If you used glue, gently cut or remove the glued ends. Keep in mind that yarn dreadlocks are generally temporary, so there's no need to worry about long-term damage to your natural hair.

Conclusion

Making fake dreadlocks with yarn is an enjoyable and creative way to change your look. With just a few materials and some time, you can achieve a unique hairstyle that stands out. Whether you're preparing for a festival, wanting to try something new, or simply enjoying a temporary change, yarn dreadlocks can be a fantastic option. Remember to take your time during the installation process for the best results, and enjoy your new look!

Frequently Asked Questions

What materials do I need to make fake dreadlocks with yarn?

To make fake dreadlocks with yarn, you will need yarn (preferably acrylic for durability), scissors, a crochet hook, a comb, and optional hair ties or clips.

How do I prepare my hair before installing fake dreadlocks made from yarn?

Before installing yarn dreadlocks, wash and dry your hair thoroughly to remove any product buildup. You can also lightly braid your hair or section it off to make the installation process easier.

What is the best technique for attaching yarn dreadlocks to my hair?

The best technique for attaching yarn dreadlocks is the wrap method. Take a section of your hair, place the yarn at the base, and wrap the yarn tightly around your hair, moving downward to create a dreadlock effect.

Can I wash my yarn dreadlocks, and how should I care for them?

Yes, you can wash yarn dreadlocks. Use a gentle shampoo and let them dry completely afterward. Avoid heavy conditioners, as they can cause the yarn to lose its shape. You can also lightly mist them with water to keep them fresh.

How long do fake dreadlocks made with yarn typically last?

Fake dreadlocks made with yarn can last anywhere from a few weeks to several months, depending on how well they are cared for and how often you wear them. Proper maintenance is key to their longevity.

Can I style my yarn dreadlocks, and what are some popular styles?

Yes, you can style your yarn dreadlocks! Popular styles include braiding them, creating updos, or adding beads and accessories for a unique look. Just be careful not to pull too hard to avoid damaging the yarn.
