1. Large Pot: For boiling pasta.
2. Colander: To drain the pasta.
3. Saucepan: For making the cheese sauce.
4. Whisk: To stir the sauce and prevent lumps.
5. Baking Dish: If you choose to bake your macaroni and cheese.
6. Stirring Spoon: For mixing everything together.

Step-by-Step Instructions

Now that you have your ingredients and equipment ready, it's time to dive into the cooking process. Follow these steps to make a delicious macaroni and cheese:

Step 1: Cook the Pasta

1. Boil Water: Fill a large pot with water and add a generous amount of salt. Bring it to a boil over high heat.
2. Add Pasta: Once the water is boiling, add your pasta of choice. Stir occasionally to prevent sticking.
3. Cook until Al Dente: Follow the package instructions, usually around 7-8 minutes. You want the pasta to be firm but not hard.
4. Drain: When the pasta is done, drain it in a colander and set it aside. Be sure to reserve a cup of pasta water for later.

Step 2: Make the Cheese Sauce

1. Melt Butter: In a saucepan over medium heat, melt 4 tablespoons of butter.
2. Add Flour: Once the butter is melted, whisk in 4 tablespoons of all-purpose flour. Stir constantly for about 1-2 minutes to create a roux; it should turn a light golden color.
3. Add Milk: Gradually pour in 3 cups of milk, whisking continuously to prevent lumps. Continue cooking until the mixture thickens, about 5-7 minutes.
4. Add Cheese: Remove the saucepan from heat and stir in 2 cups of shredded cheese. Mix until fully melted and smooth. You can add more cheese if you prefer a cheesier flavor.
5. Season: Add salt, pepper, mustard powder, and garlic powder to taste. If the sauce is too thick, add

a bit of the reserved pasta water to achieve your desired consistency.

Step 3: Combine Pasta and Sauce

1. Mix Together: In a large mixing bowl, combine the drained pasta with the cheese sauce. Stir well to ensure every piece of pasta is coated.
2. Taste Test: At this stage, taste the mixture to see if you need any additional seasoning or cheese.

Step 4: Bake (Optional)

If you prefer a baked version of macaroni and cheese, follow these additional steps:

1. Preheat Oven: Preheat your oven to 350°F (175°C).
2. Transfer to Baking Dish: Pour the macaroni and cheese mixture into a greased baking dish.
3. Add Toppings: Sprinkle breadcrumbs and additional cheese on top. You can also add a sprinkle of paprika for color.
4. Bake: Place the dish in the oven and bake for about 20-25 minutes, or until the top is golden brown and crispy.
