Tips for Working with Jelly Rolls

When working with jelly rolls, keep these tips in mind to ensure success:

1. Press Your Strips

Before you start sewing, it's beneficial to press your jelly roll strips. This helps to flatten any wrinkles and ensures that the fabric lays flat when you sew.

2. Use a 1/4-Inch Seam Allowance

Most quilt patterns, including jelly roll patterns, require a consistent 1/4-inch seam allowance. Invest in a 1/4-inch foot for your sewing machine to help maintain accuracy.

3. Plan Your Layout

Before you start sewing, lay out your strips to see how they look together. This will help you visualize the finished quilt and make any necessary adjustments before cutting or sewing.

4. Keep Your Strips Organized

It can be easy to mix up your strips, especially if you're working with multiple colors. Use a fabric basket or a designated space on your sewing table to keep them organized.
